Certain portions of this web site (i.e., newsletters, articles, commentaries, etc.) may contain a discussion of, and/or provide access to, Marin Financial (and those of other investment and non-investment professionals) positions and/or recommendations as of a specific prior date. Due to various factors, including changing market conditions, such discussion may no longer be reflective of current position(s) and/or recommendation(s). Past performance may not be indicative of future results. Therefore, no current or prospective client should assume that future performance of any specific investment, investment strategy (**including** the investments and/or investment strategies recommended by Marin Financial) or product referred to directly or indirectly by Marin Financial in its web site, or indirectly via a link to an unaffiliated third-party web site, will be profitable or equal the corresponding indicated performance level(s). Any specific securities identified do not represent all the securities purchased, sold or recommended for advisory clients, and may be only a small percentage of the entire portfolio and may not remain in the portfolio at the time you receive this report. Different types of investments involve varying degrees of risk, and there can be no assurance that any specific investment will either be suitable or profitable for a client or prospective client's investment portfolio. Historical performance results for investment indices and/or categories generally do not reflect the deduction of transaction and/or custodial charges, the deduction of an investment management fee, nor the impact of taxes, the incurrence of which would have the effect of decreasing historical performance results.

Due to differences in actual account allocations, account opening date, timing of cash flow in or out of the account, rebalancing frequency, and various other transaction-based or market factors, a client's actual return may be materially different than those portrayed in the model results. The reader should not assume that any investments in sectors and markets identified or described were or will be profitable. Investing entails risks, including possible loss of principal. The use of tools cannot guarantee performance. Past performance is no guarantee of future results. The information provided may contain projections or other forward-looking statements regarding future events, targets, or expectations, and is only current as of the date indicated. There is no assurance that such events or targets will be achieved and may be significantly different than that shown here.
